The New Hampshire Volunteer Lake Assessment Program (VLAP) is a collaborative effort that depends on many people in order to function. Without the help and support of many individuals and groups, VLAP would not continue to be a success.

The coordinators of VLAP would like to extend their greatest thanks to all of the volunteer monitors! Specifically, we thank the volunteer monitors for spending countless hours sampling and driving to and from the laboratory to pick-up and drop-off equipment and samples. We would also like to thank the volunteers for their continued support and enthusiasm for the program. Volunteer monitors help DES biologists keep tabs on the quality of many lakes and ponds throughout the state. Without volunteer lake monitors keeping a close eye on their lake or pond, the quality of these waterbodies could be compromised.

As with every year, the coordinators of VLAP would like to extend a huge thank you to each of the Biology Section interns and staff who worked relentlessly this summer to analyze samples, participate in field work, and give technical assistance to VLAP. In particular, we would like to recognize Biology Section Interns Kate Anthony and Kendra Gurney for conducting annual biologist visits this season and for managing data in the laboratory. With the help of Kate and Kendra, the program continued to run smoothly. We would also like to recognize Sara Sumner (former long-time VLAP Intern and now DES Beach Program Coordinator) for spending countless hours analyzing VLAP plankton samples, Scott Ashely (DES Biology Section Database Coordinator) for assisting the VLAP Coordinator with managing the new bureau-wide station identification system, and Andrew Cornwell (DES Watershed Management Bureau Data Specialist) for assisting the VLAP Coordinator with managing the new database system.

The coordinators of VLAP would also like to recognize the staff and interns of the Lake Sunapee Protective Association (LSPA), Colby-Sawyer College (CSC), and the Sunapee Satellite Laboratory in New London for supporting VLAP monitoring efforts in this area of the state. The CSC-LSPA Satellite Laboratory, under the management of Bonnie Lewis, continued to loan out equipment to volunteer monitors and also continued to process samples that were collected in an extremely professional and timely manner.

We also would like to thank the DES Laboratory Services, who handle a constant influx of total phosphorus and *E.coli* samples from VLAP, yet continue to deliver results quickly to the volunteers.

And finally, we want to extend a special thanks to the volunteer monitors that appear on the report cover this year! They are (in clockwise order from the top right hand-side of the photo) Dale Anderson and Herb Lippold (Big Island Pond, Derry), Bill Hallahan and Mike Gudefin (Blaisdell Lake, Sutton), Rob Richtarek (Robinson Pond, Hudson), Bob Compton and Tyler Carlisle (Deering Lake, Deering), Tim Pellegrino and Bob Madden (Beaver Lake, Derry), and Jessie Levine and Leslie Enroth (Kezar Lake, North Sutton).
